

Selçuk Cihan

Senior Software Engineer

selcukcihan@gmail.com • selcukcihan.com

SUMMARY

Former Amazonian with 20 years of expertise in distributed systems, automation & operational excellence.

Selçuk brings a strong sense of ownership and a track record of delivering results; taking on technical & management duties from operations to development, team building and architecture.

EXPERIENCE

RTIC Outdoors

2023 - 2026 | rticoutdoors.com

Senior Software Engineer

- Created mobile device management tools to support warehouse ops, reducing manual device setup and improving reliability across Android-based workflows.
- Automated warehouse operations such as processing returns, customization of products and workflows, resulting in more efficient use of resources.
- Increased observability of the backend systems, providing better visibility into warehouse operations.

Serverless Inc.

2022 - 2023 | serverless.com

Senior Software Engineer

- Created the Python AWS Lambda SDK for Serverless Console, an observability platform for applications running on AWS Lambda.
- Coordinated releases and maintained backwards compatibility of the SDK.

Tellimer

2019 - 2022 | tellimer.com

Senior Software Engineer

- Created serverless backends for multiple products, including a machine learning SAAS application and a substack like platform for financial writers.
- Built analytics application to provide the financial writers with KPIs.
- Mentored team members and led system architecture design sessions.
- Took the initiative to improve operational excellence through active monitoring and improved visibility.
- Implemented workflows for ingesting 3rd party financial articles for tellimer.com.
- Architected an article recommender and an article summarizer for tellimer.com.
- Built a serverless app that periodically maintains the sitemap for various web apps for better SEO.

Toptal

2018 - 2019 | toptal.com

Senior Software Engineer

- Developed a public facing REST API, fully serverless on AWS, serving hundreds of thousands of customers.
- Optimized cost resulting in more than 50% saving on AWS bill.
- Mentored developers and reviewed design documents.

Amazon

2017 - 2018 | amazon.com

Software Engineer

- Developed and maintained the orchestration platform that powers Amazon's massive product catalog.
- Carried out live migrations of several web services without downtime.
- Successfully deprecated multiple legacy services in an effort to enable catalog growth.

Intertech

2013 - 2017 | intertech.com.tr

Senior Software Engineer

- Supported the workflow engine serving banking applications such as loans, customer complaints etc.
- Designed a workforce management system that empowers the bank's operation center.

Ziraat Teknoloji

2011 - 2013 | ziraatteknoloji.com

Software Development Engineer

- Implemented workflow engine running on top of Oracle, serving over 100,000 workflow instances daily.
- Served as scrum master and mentored junior developers.

AirTies

2009 - 2010 | airties.com

Software Development Engineer

- Developed solutions for IPTV products in C & C++.
- Implemented teletext and RTSP parsers.
- Worked on closed captioning and subtitles for IPTV.

EDUCATION

Boğaziçi University

BS. & MS. in Computer Science

- Parallel algorithms
- Wireless networks
- Computer vision
- Graph theory

CERTIFICATIONS

AWS Certified Solutions Architect - Professional

Amazon Web Services

SKILLS

TypeScript/JavaScript, Python, Perl, Java/Scala, SQL/NoSQL, GraphQL, AWS, Serverless, Kubernetes, Distributed Systems, Google Cloud, Docker, NodeJS, React, Unix, Codex, Claude

REFERENCES

Daniel Vliegenthart

Team Lead, Tellimer | daniel.vliegenthart@gmail.com

I've been most impressed by his exceptional ability to tackle every phase of software development with in-depth knowledge, confidence and clear communication. I cannot emphasize enough how good Selcuk is at communicating in a clear and structured manner.

Ian Watt

Co-founder, Tellimer | ian.watt@tellimer.com

He was the perfect remote contractor in many ways. His communication skills are top, he is very much a self-starter who can get stuck in on work with minimal guidance or oversight, and his code quality (and documentation!) is exceptional.

Erdem Kurul

Software Development Manager, Intertech | erdemkurul@gmail.com

Selçuk is a quick learner, he approaches problems systematically and understands the business and customer needs. He is very detail-oriented, and a hard worker. You can trust him with the most challenging issues.

Decebal Dobrica

Software Architect, Tellimer | github.com/decebal

I had the pleasure to manage and to work with Selcuk Cihan for the past 2 years while at Tellimer. He rose brilliantly to all challenges thrown at him both technically and communication wise. I would say his superpower is his communications skills, both writing and talking.
